

# Community Engagement

## Metrics & Targets

### Improving Quality of Life for Vulnerable Groups (Hope)

Through the Hope Maker program, which supports children from underserved communities, SK Gas currently assists 70 children residing in three regions where its headquarters and business sites are located. The company aims to increase the number of scholarship beneficiaries by 100 by 2030 and plans to expand the program to six regions, including those with branch offices.

### Shared Growth with Partners

Through the LPG Hope Recharging Fund, SK Gas plans to support approximately 6,000 LPG facility improvement projects by 2025 and continuously expand the number of scholarship recipients. In addition, the company selects and supports one enterprise each year through the SE Bridge program, and continues to collaborate with previously supported companies on follow-up initiatives and additional projects
